INTRODUCTION

A yushman Bharat (AB) is an attempt to move from a selective approach to health care to deliver comprehensive range of services spanning preventive, promotive, curative, rehabilitative and palliative care. It has two components which are complementary to each other. Under its first component, 1,50,000 Health & Wellness Centres (HWCs) will be created to deliver Comprehensive Primary Health Care, that is universal and free to users, with a focus on wellness and the delivery of an expanded range of services closer to the community. The second component is the Pradhan Mantri Jan Arogya Yojana (PM-JAY) which provides health insurance cover of Rs. 5 lakhs per year to over 10 crore poor and vulnerable families for seeking secondary and tertiary care.

HWC are envisaged to deliver expanded range services that go beyond Maternal and child health care services to include care for non -communicable diseases, palliative and rehabilitative care, Oral, Eye and ENT care, mental health and first level care for emergencies and trauma , including free essential drugs and diagnostic services

The expansion of services has been planned in incremental manner. As a first step, Screening, Prevention, Control and Management of Non-communicable Diseases and Chronic Communicable diseases like Tuberculosis and Leprosy has been introduced at HWCs.

Key Components

- 1. Care in pregnancy and childbirth.
- 2. Neonatal and infant health care services
- 3. Childhood and adolescent health care services.
- 4. Family planning, Contraceptive services and Other Reproductive Health Care services
- 5. Management of Communicable diseases: National Health Programs
- 6. Management of Common Communicable Diseases and General Out-patient care for acute simple illnesses and minor ailments
- 7. Screening, Prevention, Control and Management of Non-Communicable diseases and chronic communicable disease like TB and Leprosy
- 8. Basic Oral health care
- 9. Care for Common Ophthalmic and ENT problems
- 10. Elderly and Palliative health care services
- 11. Emergency Medical Services
- 12. Screening and Basic management of Mental health ailment.

The delivery of CPHC through HWCs involve is complex task as it requires a paradigm shift at all levels of health systems. The operationalization of HWCs requires several inputs

Prongs of a workplace wellness program

- Health risk assessment
- Blood sugar
- Blood pressure
- Body weight/body mass index
- Body fat percentage
- Bone density
- Cancer screening
- Cholesterol
- General physical exam

Key Milestones

The first HWC was launched in Bijapur, Chhattisgarh on April 18th, 2018. In the first year, over 17,000 HWCs were operationalized, more than the target of 15,000 set for FY 2018-19.Hon'ble Prime Minister Shri Narendra Modi inaugurated the first Health & Wellness Centre in Chattisgarh under the Ayushman Bharat scheme. It was his fourth visit to Chhattisgarh along with the then Union Health Minister Shri J.P. Nadda. Under Ayushman Bharat, the government proposes to

Hon'ble Prime Minister inaugurating the first HWC at Jangla Development Hub, in the aspirational district of Bijapur in Chhattisgarh. open 1.5 lakh health and wellness centres by 2022, which will be equipped to treat a host of diseases, including blood pressure, diabetes, cancer and old-age illness. Also under the scheme, the government has prepared the contours of the National Health Protection Scheme and the work is on to finalise parameters for identifying beneficiaries and hospital entitlement. Services at Ayushman Bharat- Health & Wellness Centres (AB-HWCs) are free and universal to all individuals residing in the service area.

Ayushman Bharat - Pradhan Mantri Jan ArogyaYojana (AB-PMJAY) is an entitlement-based scheme for providing health cover up to Rs. 5 lakh per family per annum to around 10.74 crore poor and vulnerable families. No registration or enrolment of entitled beneficiaries is required for availing the benefits under AB-PMJAY. However, in order to create awareness and facilitate easy availing of benefits, paper-based e-cards are being issued to the beneficiaries, after verifying their identity. The identification of beneficiaries is a continuous process and the responsibility of issuing AB-PMJAY e-cards lies with the States/UTs.

Project Overview

On 25th January 2019, Institute of Medical Sciences, Banaras Hindu University (BHU) agreed to sign an MOU with Patient Safety and Access Initiative of India Foundation (PSAIIF) and Glenmark Foundation (GF) to create a Model Health and Wellness Centre in TIKRI Village of Varanasi by converting the existing Community Centre in the same village managed by the Department of Community Medicines. The Letter agreeing in principle based on a proposal submitted on 22nd November 2018 is attached as **(Annexure A)**.

Banaras Hindu University, Varanasi established under the Banaras Hindu University Act No. XVI of 1915 and Patient Safety and Access Initiative of India Foundation, PSAII registered under section 8 of the Companies Act of 2013 having its registered office at B-306, First Floor, CR Park, New Delhi 110019 and functional office at F-9, Second Floor, Kailash Colony, New Delhi-110048 along with Glenmark Foundation, a non-profit organization registered under the Bombay Trust Act, 1950 and having its registered office at B/2, Mahalaxmi Chambers, 22, Bhulabhai Desai Road, Mumbai – 400 026 and corporate office at Glenmark House, B.D. Sawant Marg, Chakala, Andheri (E) Mumbai – 400099 agreed to go ahead with the project from April 2019.

The Department of Community Medicine, IMS, BHU has three Health Centers out of which one is Community Health Centre at Tikari (near Govt. Inter College), established in year 1975 with the Nobel idea of Padma Shri K.N. Udupa for providing integrated Health Services (Indigenous and Modern Medicine at one place) and this was very much in line with the current strategy of Government policy. The center catches population of Tikari, Tarapur, Nuaon, Narpattpur, Kuruhuan comprised of approximate 2234 families. Glenmark Foundation is the CSR arm of Glenmark Pharmaceuticals Ltd working towards various health initiatives for the common public and PSAII is a non-profit organisation working in the interest of patient safety and improving accessibility and affordability to quality healthcare including issues concerning spurious and not of standard quality (NSQ) medicines found in the supply chain.

BHU, PSAII and Glenmark Foundation are collaborating to renovate and upgrade the presently working Health Centre, at Tikari, in Varanasi as a Health and Wellness Centre as part of the Ayushman Bharat Yojana, Pradhan Mantri Jan Arogya Yojana (PM-JAY) according to the project - **Annexure B** ("Project"). Glenmark Foundation in line with Glenmark Pharmaceuticals Ltd's commitment towards corporate social responsibility has agreed to fund the renovation and maintenance of the Health Centre upto the point of making a model for the country. PSAII and Glenmark Foundation had vide a MOU dated 20th March, 2019 **(Annexure "C")** in relation to the Project and set out terms and conditions between them. On 29th August, 2019 the final formal MOU between BHU, PSAIIF and Glenmark Foundation was signed to formally approve the project and go ahead with its implementation and take it to its logical end in the interest of the beneficiaries (Refer **Annexure "D"**).

Department of Community Medicine, IMS, BHU will provide services at Community Health Centre, Tikari. The centre will provide Primary Health Care Services to the people of village covered under service area. Administration will be under control of Department of Community Medicine, IMS, BHU. Patient Safety and Access Initiative of India Foundation has collaborated with IMS, BHU and Glenmark Foundation to create, renovate and upgrade the above mentioned Health Centre at Tikari, Varanasi by creating infrastructure and providing required manpower and resources on the basis of common concern between the Parties. PSAII shall ensure that the Funds provided by Glenmark Foundation under MOU dated 20th March, 2019 are strictly used for the execution of the Project. PSAII shall provide a statement of utilisation of the Funds on regular basis and a final statement of the same, after completion of the Project. The release of Funds shall be subject to the satisfactory completion of the work or its utilization. Glenmark Foundation in line with its commitment towards corporate social responsibility has agreed to fund the renovation and maintenance of the Health Centre the

details of the funding are more specifically mentioned in MOU dated 20th March, 2019. Glenmark Foundation may provide additional funds based on specific request from IMS, BHU and provided the same as is agreed upon by Glenmark Foundation in writing.

Project Objectives

- To create a model Health and wellness center at a pre identified PHC and sub centers
- To ensure all beneficiaries in the intervention area under the Health and Wellness center are sensitized and made aware about Ayushman Bharat
- To establish a strong networking relationship with all healthcare providers of modern and traditional medicines (diagnostics, nursing homes, Public/ Private Hospitals, practitioners) to promote a robust system of disease management and strengthening of pharmacovigilance adverse drug reaction surveillance system.

SIGHT INSPECTION AT TIKRI VILLAGE

In the month of December 2018 a sight visit was conducted by **Dr. V. K. Shukla** the then Director of Institute of Medical Sciences (IMS) BHU along with the Head of Community Medicines **Prof. (Dr.) Sangeetha Kansal** and **Dr. Arun Dubey,** Assistant Professor of IMS to decide on the activities to be conducted at the proposed Community Centre at TIKRI Village. On 25th of January 2019 it was agreed that the TIKRI Community Centre managed by IMS BHU will be converted into a Model Health & Wellness Centre as per the norms of Ayushman Bharat.

DEMOLITION AND STARTING OF CONSTRUCTION

The construction work took a while to start as we had to seek formal permission for the demolition of old structures and make a formal application with the planned construction activities as agreed between all the proposed partners to the project. The work started in full swing from August 2019 after shortlisting the vendors and signing of the formal BHU between BHU, PSAIIF and Glenmark Foundation.

CONSTRUCTION AT NIGHT

In order to race against time, the construction activities at the site were conducted 24X7 by **Shri Rishi Singh** of PSAIIF Team and the dedicated vendor **Shri Santosh Kumar Srivastava.**

STARTING CONSTRUCTION ACTIVITES

The construction activities could only start after the demolition work was completed by BHU and debris got removed, which happened in May-June 2019. Only after the final layout plan got approved by BHU, the vendor mobilised the skilled and unskilled manpower and procured the building materials to start the work in full swing.

COMPLETION OF THE CONSTRUCTION ACTIVITIES

Finally, the construction activities were completed by end of 2019 and our focus on how to make all the facilities functional like availability of essential medicines, diagnostics, telemedicine link with Sir Sunderlal Hospital, BHU including referrals to Speciality Care at BHU were slowly made functional from January 2020. It was decided that the Model H&W Centre will be inaugurated only after all the facilities are stabilized and made fully functional in the interest of the beneficiaries.

OUT REACH VISITS

We visited more than 30 Wellness Centres spread over 3 months starting from April 2019. There are 8 Blocks in Varanasi and in every Block there is one additional Primary Health Centre (PHC). There are as of date 24 Urban H&W Centres and 24 Rural H&W Centres plus 8 additional PHCs and our Tikri Community Health & Wellness Centre got included in the official list, **Annexure E**. As of date we have 57 Functional H&W Centres in and around Varanasi, which will be increased to another 47 Centres by 2020 in order to reach our target of 104 H&W Centres by 2022.

H&W Centres

संसारी रोग हि

Out Reach Programs

Link to Telemedicines

Telemedicine connectivity was initiated at the TIKRI H&W Centre in February 2020, which is the first centre to start the facility with support from **Dr. Ratan Kumar Srivastav** (Centre Incharge) of the Hub located in BHU for the purpose of connecting all the 104 H&W Centres in Varanasi. We also received technical support from **Mr. K. P. Pathak** (Manager) of the Hub and **Mr. Amit Mishra** (Technician) to get the facility started in our TIKRI Centre.

Minutes of Tikari ANM/ASHA/AAGANBADI Meeting on 7th February 2020 under the Health & Wellness Centre Project

Names of the Key Participants: Dr. Sangita Kansal (Prof. & Head Community Medicine Dept. IMS, BHU), Dr sachidanand sinha (SSR Tikari), Dr Pallavi (JR Tikari) Mr. S.B.Tripathi (Research Scientist) Mrs. Archana srivastav (Research Scientist) and others 1. ANC clinic will be run on every monday.

- 2. NCD program will be run on every tuesday.
- 3. Every wednesday a program will be run for children related illness.
- 4. Awareness program will be conducted on every KISHORI DAY/LAADLI DAY and the girls of the village made health conscious.
- 5. Screening program for Mouth/breast and vaginal cancer will be organized.
- 6. Awareness program for mentally challenged people and child also will be also organized.

INTERACTION WITH STAKEHOLDERS

We had regular consultations with the various Stakeholders in order to seek their active participation and engagement in the project.

With Uttar Pradesh Chief Minister

With Chief Medical Officer

The Chief Medical Officer Dr. V. B. Singh played a key role to make the project take off and facilitated in not only conducting regular meetings with his team engaged with H&W Centre but also invited the Medical Practitioners, Chemists and other stakeholders in Varanasi to understand the challenges and how BHU, PSAIIF and Glenmark Foundation can play a facilitating role to improve the quality of healthcare in and around Varanasi, especially at the Primary Healthcare Centres, which were being converted into H&W Centre.

With IIT-BHU

PSAIIF had an MOU with IIT BHU since 2015, which got revived in 2019 after the new Director **Prof. Dr. Prof. Pramod Kumar Jain,** joined the Institute and based on the MOU, our H&W Centre project was further strengthened by the Department of Pharmaceutical Engineering and Technology, IIT BHU. They provided technical support to our project and several workshops and seminars were organised during the year to prepare a road map on how to monitor the quality of medicines and devices. We also initiated a project to study the quality of medical devices made available in the supply chain in Varanasi for the patients. **Prof. Sushant Kumar Shrivastava**, Head of Department took a leading role in developing the study in consultation with the other faculty members.

BHU Workshop

DM Varanasi

We had meetings with the **District Magistrate (DM) of Varanasi Shri Kaushal Raj Sharma IAS,** at Pindra during one of the Thashil Divas event in the month of November 2019 along with local elected representatives and other officials from the UP Government based out of Varanasi.

With Indian Medical Association, Banaras

We also had interaction with the Members of the Indian Medical Association (IMA), Varanasi Branch and attended their annual events in order to sensitise them about the various initiatives of the Government and Quality Council of India in improving the healthcare delivery system and how they can adopt the best global standards on quality care as per NABH standards. We conducted workshops at IMS Building and also at BHU in Sir Sunderlal Hospital and the Trauma Centre. All these activities we undertaken from January of 2019 to December 2019, while the Model Health & Wellness Centre was constructed and made ready for providing all the facilities.

Proposed Way Forward

Roll out plan by Government of India:

Given the magnitude of inputs required to strengthen the primary health care facilities, the operationalization of HWC has been planned in a phased manner till the year 2022.

Keeping in view in terms of the roll out plan of Government of India, we propose the following activities as a way forward to create the MODEL Health & Wellness Centre in TIKRI Village of Varanasi in the State of Uttar Pradesh.

Making the Yoga Centre Functional with one instructor and enrolling atleast 100 participants to attend the training camps

- We would document the number of camps conducted every week
- Attendance sheet of the participants along with their health profile
- Identify a qualified Yoga instructor to be engaged by BHU
- How many Villagers are regular visitors to the camps
- We should target at least 100 participants on a rotating basisfrom different villages

Organise at least 2 Training Initiatives ASHA Volunteers and PHC Healthcare Workers on the facilities provided in the Health & Wellness Centre and how the trained Healthcare Workers can build awareness on preventive care in the villages around the Tikri Centre.

- Develop and share a monthly training calendar for the next 6 months
- Certified by BHU and State Govt
- Training module and topics
- Training institute & trainers details
- Intensive IEC for maternal and child health
- Printing of booklet, Banners cards of the IEC
- Number of ASHA & Anganwadi workers intended to reach
- Involving ICDS authorities district officials during training

Supply Medicines to Poor and needy Patients based on the Medical Practitioners posted at the Centre by BHU and the UP State Government, supplementing the activities of the Government in improving the accessibility of essential medicines as per the list provided by the Government under Ayushman Bharat for the citizens in the villages around Tikri.

- Provide the list of medicines to be procured with the order details
- Make a month wise estimate
- List of medicines and quantity provided by Govt.

Provide basic diagnostic facilities to Patients as per the norms of the Government and ensure we are able to supplement the activities of the Government on essential diagnostic services managed by qualified technicians from BHU.

- List the test to be conducted
- List the cost of per test for per patients

Provide AYUSH medication at the Health & Wellness Centre with Doctors provided by BHU and the UP State Government.

- Maintain a record of the Patients treated through AYUSH Medication.
- List of AYUSH Medicines made available to the

Link the Health & Wellness Centre with Telemedicine Hub of BHU and ensure accessibility to Specialised Consultations.

• This will come from the cost of the medicines

Connect the Health & Wellness Centres with all the existing and functional centres in the District of Varanasi and also with Sir Sundar Lal Hospital, Trauma Centre and the Tata Cancer Research Institute in Varanasi.

Finally launch the centre as a Model Wellness Centre as defined by Government of India under Ayushman Bharat.

Share the list of the below month wise starting from Feb and the cost of each month

- Non consumables
- Consumables
- Screening and basic diagnosis
- Minor OT
- Emergency

Task for the coordinator

- Conduct survey on the health status of the surrounding villages
- Enroll villagers for yoga
- Feed data
- Send the plan for village level awareness campaigns to make people aware about the possible reasons of common health problems to take preventive steps at individual, family and community level.
- Enroll the diagnostic details
- Make an analysis of the existing health and wellness center which are functioning in UP
- Study of successful centers across India

Monthly report to be submitted to Glenmark Foundation on the 5th of every month with official sign off from BHU (Community Medicine Center) and PSAII

Annexure B

PROJECT

Health and wellness centres were created under Ayushman Bharat Yojna to improve availability, accessibility, utilisation of services and to reduces out-of-pocket expenses.

Community Health Centre (CHC), Tikri provides promotive, preventive ,curative health services and teaching and training to under graduate and post graduate students. Upgradation of CHC, Tikri into Health and Wellness centre is the strong need of the community It will provide unique platform for interdisciplinary services.

Following primary health care services are delivered through CHC ,Tikri

- Routine OPD
- Mother and Child health promotional activities-
- ANC Clinic, Health awareness activities
- Adolescent Health promotional activities
- Screening of disease
- Immunization sessions
- Implementation of National Health programs
- Field practice area for al research activities
- Health camps
- Census

In furtherance of the above, the PSAII shall undertake all necessary activities agreed with Glenmark vide Agreement dated 20th March, 2019.
